YARD
Al Sajaa Industrial Area, Sharjah

ABOUT US

Two decades of wood and deadlines.

Al Madhi Carpentry started in 2003 in the Al Sajaa Industrial Area, Sharjah. For twenty years the work was pallets and nothing else: new pallets built from wood, old and used pallets, and used wood from pallets we take apart. In October 2025 we added wood shavings from the same saws.

We have never been a trading company. Every pallet is cut, nailed and stacked by our own people in our own yard. That is why we can give a real finish date and stand behind it.

2003	7	Same day	Factory
Making pallets since	Emirates covered	Quotes on working days	Direct, no middleman

OUR MISSION

Make the right pallet for the load, at a price the customer can repeat next month.

OUR VISION

A yard where nothing is wasted. Old pallets become boards, boards become pallets, and what the saw takes off becomes bedding.

MESSAGE FROM THE FOUNDER

When I started Al Madhi Carpentry in 2003, it was a small yard with one rule: every pallet had to be one our customers could rely on.

More than twenty years later, that rule has not changed. Whether it is one custom pallet or a large shipment, it leaves our yard with our name on it. I am grateful to every customer, supplier and member of our team who has been part of this.

Bilal Ahmed
Founder, Al Madhi Carpentry

THE RANGE

Every grade, size and quality.

Wood or plastic, new or used, any size. Everything is quoted the same working day.

Custom sizes & grades

p. 04

Any size, built from your drawing or sample.

New pallets

p. 06

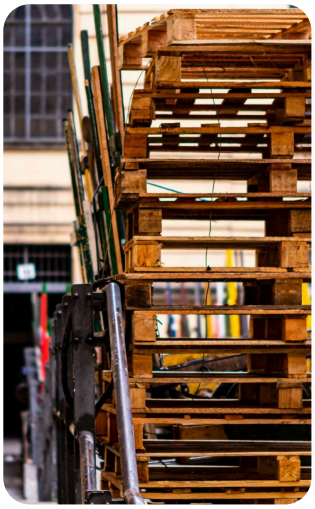

Fresh pine, light or heavy duty.

Heavy duty pallets

p. 06

For steel, chemicals and machinery.

Used pallets

p. 07

Checked, graded and ready today.

Plastic pallets

p. 07

Washable. No ISPM-15 needed.

Boxes & crates

p. 08

Built around what goes inside.

Pallets for furniture

p. 08

Sanded and ready to build with.

Wood shavings

p. 09

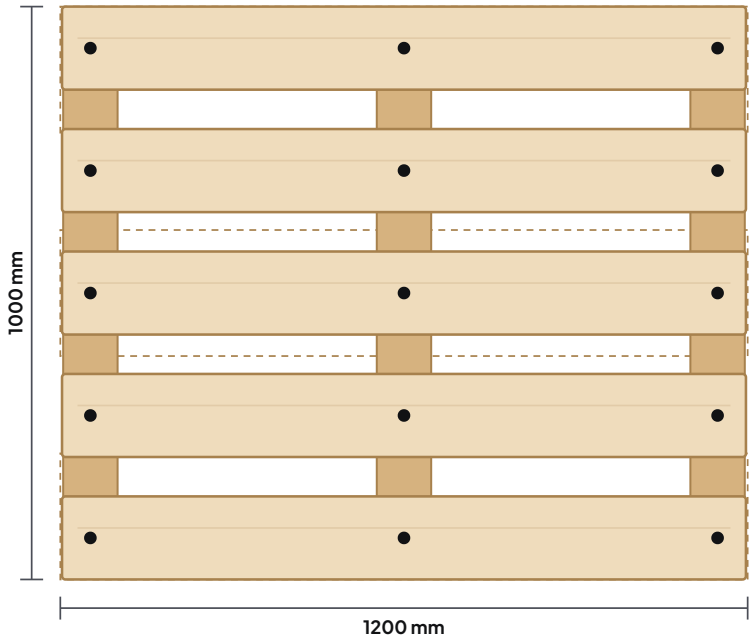

Clean chips in 11–14 kg sacks.

INSIDE A PALLET

Built one layer at a time.

Our standard block pallet is 1200 × 1000 × 150 mm. Board count, thickness and spacing change with the load, so every job is quoted against your size and weight.

TOP VIEW

Top deck
5 boards that take the load

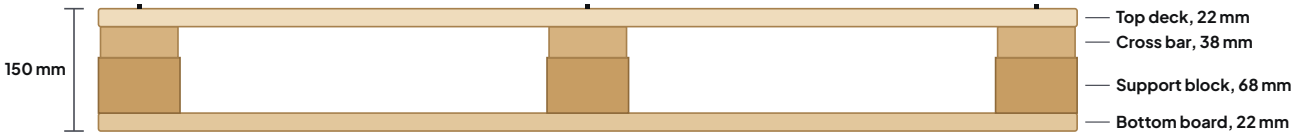

Cross bars
3 beams under the deck that stiffen the frame

Support blocks
9 blocks that spread the weight down

Bottom boards
3 boards for a stable base on forklifts and racking

Nails
Where each deck board crosses a bar

SIDE VIEW

HOW WE KEEP THE STANDARD

01

Wood intake

Every load is checked for moisture and rot before it is stacked. Wet or warped wood goes back to the supplier, not onto the saw.

02

Nailing and assembly

Set nail patterns for each grade, checked against the sample pallet on the bench.

03

Load check

The first pallet of every custom run is loaded and checked before the batch is released. If it bends, the build changes first.

04

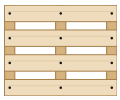

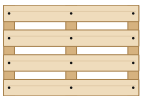

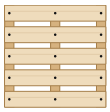

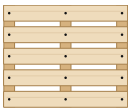

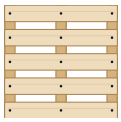

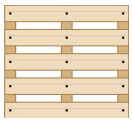

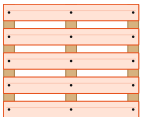

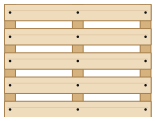

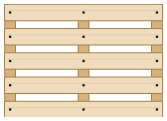

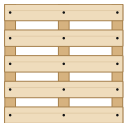

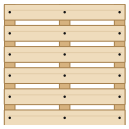

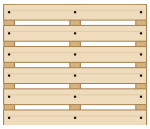

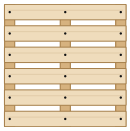

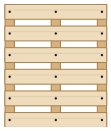

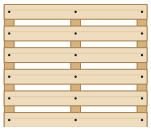

Heat treatment on request

ISPM-15 treated and marked wood for export. Tell us the destination country with your enquiry.

CUSTOM SIZES & GRADES

Any size. Any grade.

Most of what leaves our yard is made to order. There is no minimum order and no extra charge for a one-off size.

 80 × 100	 80 × 120	 90 × 90	 90 × 110	 100 × 100	 100 × 110
 **100 × 120** Most requested	 100 × 130	 100 × 140	 105 × 105	 110 × 110	 110 × 130
 115 × 115	 120 × 100	 120 × 120	 120 × 140	 60 × 80 Half pallet	 40 × 60 Quarter pallet

Sizes in centimetres, drawn to scale and seen from above. Highlighted: 100 × 120 cm, our most requested size and kept in stock.

01

Send a drawing

A CAD file, a sketch, or a spec sheet from your carton supplier.

02

Send a photo

A photo with a tape measure in it, of the pallet or space you are matching.

03

Send a sample

Drop off the pallet you use now and we match it board for board.

EXPORT GRADE

ISPM-15 heat treated

Heat treated and stamped, with a certificate for customs at the destination port.

FOOD SAFE

Untreated timber

No chemical treatment or paint. Clean timber with nothing added.

FINISHED

Sanded and smooth

Splinter-free edges and a sanded surface for showroom or customer-facing use.

WOODEN PALLETS

New pallets, built fresh.

Cut and nailed from fresh pine in our own yard. Every load of timber is checked for moisture and rot before it reaches the saw.

Stock size	100 × 120 cm, kept in the yard for urgent orders
Light duty	The lighter build, easy to move by hand. For food, retail and pharma.
Heavy duty	Thicker boards and extra nails where the weight sits.
Material	Softwood pine, checked before it is stacked
Export	ISPM-15 heat treatment on request

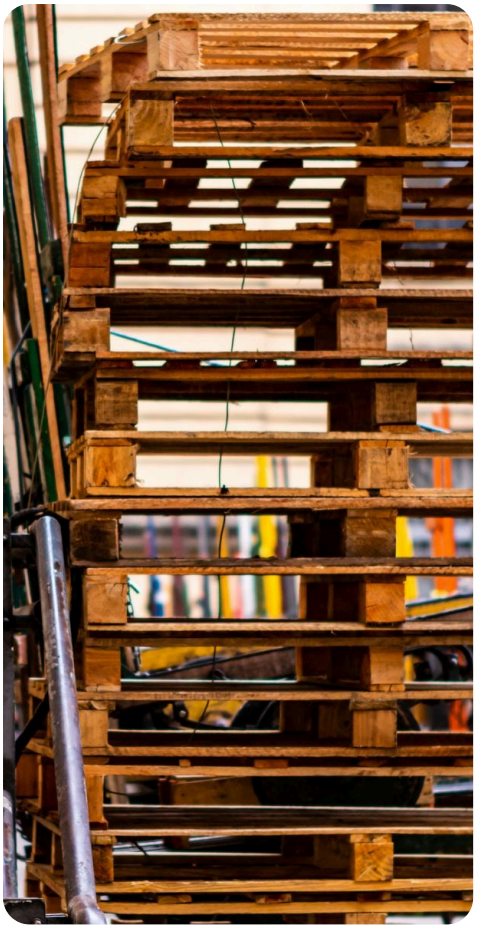

WOODEN PALLETS

Heavy duty, for the heaviest loads.

For steel, chemicals and machinery, where a standard pallet bends. Tell us the weight, whether it is a point load, and how it is lifted.

- ✓ **Thicker deck boards** so the top does not bow under a heavy point load.
- ✓ **Extra nails** placed where the weight sits, not spread evenly.
- ✓ **Stronger blocks** so the base holds under a forklift or racking.
- ✓ **Built to your load.** We do not print one weight rating, because the build depends on what it carries.

WOODEN PALLETS

Used pallets, sorted by grade.

Checked for broken boards and loose blocks, then graded so you only pay for the condition you need. In stock for same or next-day pickup.

Grade A	Sound, with only light wear. For in-plant use and one-way export.
Grade B	Our lowest price. Weathered, but holds together for storage and short trips.
Mixed bulk lot	Assorted sizes, mostly 100 × 120 cm, sold by the lot.
What we check	Cracked boards, loose blocks and missing nails, fixed or graded down.

PLASTIC PALLETS

Plastic pallets, new and used.

Moulded pallets that do not soak up water, rot or splinter. Plastic costs more up front, so tell us the job and we will say honestly which fits.

Food and pharma	No splinters or absorbed smells. Easy to wash or steam clean.
Export	Plastic does not need ISPM-15 heat treatment.
Sizes	Standard moulded sizes, including 100 × 120 and 110 × 110 cm
Used stock	Checked for cracks, washed and sorted by size before sale

EXPORT CRATING

Boxes and crates, built around your goods.

Closed wooden boxes and open export crates made to fit the item going inside. Send its size, its weight and how it will be lifted.

Machinery	Open or closed crates with bracing at the lift points
Fragile goods	Fully closed boxes with padding inside
Palletised export	A crate built onto one of our pallets, so it moves as one unit
Export	ISPM-15 heat treated, with certificate, on request

HOME & DÉCOR

Pallets for furniture.

The same strong pallet, sanded smooth and checked for splinters and loose nails. Ready to stain, paint or leave raw. One pallet or a hundred.

Tables and sofas	Sanded decks for indoor furniture
Garden and balcony	Benches, planters and outdoor seating
Décor and display	Shop displays, weddings and events
Your size	Built to your project, not just a stock footprint

WOOD SHAVINGS, SINCE OCTOBER 2025

Clean chips, loose in sacks.

Dry chips from our own saws, from the wood we cut for pallets. Not pressed into blocks. Nothing painted or treated goes in.

Sack weight	About 11 to 14 kg, depending on the batch
Orders	Ten sacks or a truckload. Weekly or fortnightly standing orders.
Storage	Keep under cover and off the ground

01

Animal bedding

Stables, poultry houses and small animals.

02

Workshop floors

Soaks up oil, coolant and water. Spread it, then sweep it up.

03

Packing fill

Cushioning for glassware, ceramics and machine parts.

04

Bulk use

By the truckload for mulch, compost and site use.

HOW AN ORDER RUNS

From timber to your gate.

01

Send your specs

Size, quantity and what the pallet carries. A photo works as well as a drawing.

02

Same-day quote

Priced the same working day for enquiries before 6 pm.

03

Production

Once you confirm, your order is on the floor that week, with a finish date.

04

Delivered

Our own trucks, all seven emirates. Collecting from the yard costs less.

WE ALSO BUY

Old pallets or timber? We'll take them.

Used pallets in any grade, new or used timber, offcuts and dunnage. From a few pieces to a full warehouse clearance, anywhere in the UAE.

01

Send a photo

Call or WhatsApp a photo and a rough quantity.

02

We quote a price

The same working day, based on condition and amount.

03

Cash on pickup

Our team collects and loads it. You are paid before the truck leaves.

Before you order.

Delivery times

Sharjah & Ajman	**Same or next day**
Dubai & Umm Al Quwain	**Next day**
Ras Al Khaimah & Fujairah	**1 – 2 days**
Abu Dhabi & Al Ain	**About 2 days**

Priced on distance and load size. Collecting from the yard costs less.

Opening hours

Monday to Saturday	**6 am – 6 pm**
Sunday	**Closed**
Quotes	**Same working day**
Yard	**Al Sajaa, Sharjah**

Enquiries received before 6 pm on a working day are priced the same day.

What pallet sizes can you make?

Any size. 100 × 120 cm is the size we ship most and keep in stock. For anything else, send a drawing, a photo or the pallet you use now.

How much weight will a pallet hold?

It depends on the build. Tell us the weight and what it carries, and we choose the boards and base to suit.

Do you sell used pallets?

Yes. They are checked for broken boards and loose blocks, and sold by the piece or as a mixed bulk lot.

Can you heat treat pallets for export?

Yes. ISPM-15 is available on request. Tell us the destination country and we confirm the stamp and certificate.

How soon can you deliver?

Stock sizes are usually ready the same or next day. Custom orders get a finish date with the quote.

Is there a minimum order?

No. Small orders are welcome, and the price per pallet or per sack gets better with quantity.

WHO BUYS FROM US

Logistics & freight / Food & beverage / Steel & fabrication / Chemicals / Retail & FMCG / Pharma / Stables & poultry / Furniture & joinery / Construction / Marine & export

Al Madhi
CARPENTRY

Send the size. We send the price the same day.

Size, quantity and what the pallet carries is enough to start. A photo or drawing helps.
